

Bayes@Lund - Mini-conference on Bayesian Methods at Lund University

10th of April, 2014

The purpose of this half day conference is to bring together researchers at Lund University working with or interested in Bayesian methods. The focus will be on how Bayesian methods are used in research at Lund University, what advantages Bayesian methods have over classical alternatives, and how the use and teaching of Bayesian methods at Lund University can be encouraged.

The final discussion will be on the slow adoption of Bayesian methods at Lund University. Topics of discussion will be: Why are Bayesian methods not well represented in courses at Lund University? How to deal with aversions to the application of Bayesian methods? How to strengthen the role of Bayesian methods at Lund University?

The conference is free to attend but in order to know how much coffee to arrange and if you want to attend the lunch (however at your own cost) we ask you to register in advance here:

<http://www.lucs.lu.se/bayes-at-lund-2014/> .

Call for Abstracts

We ask for oral presentations about why or how you use Bayesian methods in your research. We seek a mixture of presentations from different faculties and applications. Send in the title of your talk with an abstract (not more than 100 words) to ullrika.sahlin [at] cec.lu.se !

Important Dates

Final date for abstract submission	23 Mars
Notification to presenters	25 Mars
Final date for registration	7 April
The conference	10 April

Location

The conference will be held in central Lund. The locale will be announced shortly.

For more info contact

Rasmus Bååth, Lund University Cognitive Science, Department of Philosophy: rasmus.baath [at] lucs.lu.se
Ullrika Sahlin, Lund University Centre of Environmental and Climate Research: ullrika.sahlin [at] cec.lu.se

If you want to get notified of other events at Lund University that relates to Bayesian methods consider subscribing to the Bayes@Lund mailing list at <http://www.lucs.lu.se/bayes/>

Preliminary Program

- 12.00 Lunch
- 13.30 Presentations by 3 speakers 20 min + 5 discussion each
- 14.45 Fika break
- 15.15 Presentations by 3 speakers 20 min + 5 discussion each
- 16.30 General discussion
- 17.00 End of the day

Afterwards we go out for a beer
